

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_24577
Title of the Manuscript:	On Finding Geodesic Equation of Two Parameters Inverse Gaussian Distribution
Type of the Article	Method article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	• The line 121: “This idea originated from French mathematician Darboux’s theory “ It is poorly drafted. • The Appendix, it seems unnecessary. • I think the authors must explain another example, one less trivial	French mathematician Darboux , as German mathematician Gauss , has made so many significant contribution in differential geometry . Both has been honor as the founding father in this area of study. I don’t think appropriate to deny this fact. The Appendix used to support first method not second. Hence it needed to stay there.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
