SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In this paper the authors introduce and study the class of sg -closed sets, which is properly placed between the classes of semi-closed sets due to Crossley and Hildebrand in 1974 and gs-closed sets due to Arya and Nour in 1990. Moreover as applications, using the sg -closed sets, they introduce a new space called T_{sg} -space. The paper has original results and publishable in your journal But there are some linguistics mistakes. They should check it again.	ok
Minor REVISION comments		
Optional/General comments
