

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_26024
Title of the Manuscript:	DEVELOPMENT OF AN OPTIMIZED MOBILE AGENT MIGRATION PATTERN FOR PULL-ALL DATA STRATEGY
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Authors propose a pull-all data migration pattern in a mobile agent system to lower network load and transmission time. In Figure 1 and 2, X and Y values need to be switched. Proposed method needs to be elaborated. The mathematical model and formulas are not enough to make it understandable. The paper is well written and well organized for the most part, without spelling, grammar or use of English errors.	Thanks for the review and comment. Figure 1 and 2 now Figure 2 and 3, X and Y values has been switched. The proposed method has been elaborated more and the flowchart diagram of the method has been added and explained to make it understandable.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
