

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_26242
Title of the Manuscript:	ON SIMILAR PARTNER CURVES IN DUAL SPACE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	In this paper author explained curves in three-dimensional space with variable transformation. Also talked about characterizations and theorems. Conclusions/interferences are not drawn, need to be discussed Analysis of curves/simulation is essential Graphical representation may be added Characterization is not clear Recent work in this domain and references need to be discussed. Practical/ scientific relevance not clear	In this paper author explained curves in three-dimensional space with variable transformation. Also talked about characterizations and theorems. Ans: YES, I explained curves in three-dimensional space with variable transformation. Also talked about characterizations and theorems. Analysis of curves/simulation is essential Graphical representation may be added Ans: NO, added Characterization is not clear Ans: NO, is clear Recent work in this domain and references need to be discussed. Ans: yes Practical/ scientific relevance not clear Ans: NO, is clear
<u>Minor</u> REVISION comments	Language and editing corrections	
<u>Optional/General</u> comments	Analysis is needed
