

Manuscript Title: On Geodesic Paracontact CR-Lightlike Submanifolds

Journal: [British Journal of Mathematics & Computer Science](#)

Manuscript ID: Ms_BJMCS_24430

Geodesic Paracontact CR-Lightlike Submanifolds are studied. Some geometric results on paracontact screen CR-lightlike submanifolds are obtained.

I have gone through the above research paper very carefully and critically. The subject matter of the paper is nice and results are accurate. But the presentation of the paper is not good enough. There are many punctuational and grammatical errors which need to be corrected.

Following are some:

1-Introduction.

Line 7, in "... B. S, ahin **and** R. Gunes, S, ahin and Gunes, (2001)" first "and" should be replaced by ",". This should be followed throughout the paper.

Line 7, "..... **Kaehler**..." will be **Kahler** as in Line 21. This should be followed throughout the paper.

2-In Equation (2.1), remove the ","

3- In Equation (2.19), "," will be "."

4- Page5, Line3, remove "," before and.

5-In Theorem 3.2, Line 5, remove "," before and. Similarly in proof of the Theorem 3.3.

6- In Definition 3.4, Line 3, "." will be removed.

7-Theorem 3.4, Line 5, remove "," before and. This should be followed throughout the paper.
