

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_24446
Title of the Manuscript:	The behavior of two coupled mechanical oscillators in non-linear fields and the possibility of obtaining controlled halts
Type of the Article	Original research papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This research article entitle “ The behavior of two coupled mechanical oscillators in non-linear fields and the possibility of obtaining controlled halts ” is much impact in nonlinear vibration and Applied mathematics. In this paper, the authors did not introduce their new findings in the manuscript. The mathematical expressions and its analytical solutions has no novelty. Moreover, the use of English language in the whole manuscript is very poor. In addition, the authors write the manuscript follow book style not research article.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
