

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_24450
Title of the Manuscript:	An Application of the Maximum Theorem and the Distance Method in Set-Valued Optimization Related to Efficient Continuous Selections
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper is devoted to obtain the relationship between the basic solution concepts of set-valued and the existence continuous selections by means of the Maximum Theorem and the Distance method. The topic of paper is interesting. The level of mathematics is not trivial and the proofs seem to me mathematically correct. In conclusion, I advice to accept it for publication.	
<u>Minor</u> REVISION comments	Page 3, line 129: "an unique" should be "a unique"	
<u>Optional/General</u> comments
