**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                       | <b>Author's comment</b> ( <i>if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i> ) |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <b>I have no comments in this part.</b>                                                                         |                                                                                                                                                                                               |
| <b><u>Minor</u></b> REVISION comments      | I found a little mistake on line 33, page 2. Please [3] instead of {3}.                                         |                                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    | This is a very well written article and easy to follow. The methods used there are elementary, but interesting. |                                                                                                                                                                                               |

**Reviewer Details:**

|                                  |                                                                     |
|----------------------------------|---------------------------------------------------------------------|
