SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper is apparently a Mobile App about location in ever growing educational institutions, taking Brown University as the base for testing. Literature review is satisfactory and the methodology is OK.	
Minor REVISION comments	It is good that Agile method was used for testing, since it reveals maximum errors/bugs. The visualization of the results is also satisfactory.	
Optional/General comments	If it really satisfies all the ever-changing requirements, then the app must be made available on Google Play and Apple Store. But before doing that, the security aspect should be thoroughly checked.
