SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Minor REVISION comments	The authors of the paper entitled "On The Spacelike Curves of Minkowski 4-Space" concern with the definitions and theorems about position vectors of a spacelike curve in the some subspaces of Minkowski 4-space. It is a purely theoretical paper and a quite elementary topic view of point the differential geometry in 4-dimensional Minkowski space. It has no application area and the computations are very simple. Also, equation (3.3) is incorrect. Section of references should be revised. For example, In reference [12], the authors have forgotten "Lorentzian" word.
