

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_27567
Title of the Manuscript:	Hidden Markov Model Approach for offline Yor`ub`a Handwritten Word Recognition
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
- Eqn. (9.1) and (9.2) (which includes the recognition rate and the precision of the HWRS) should be included at the beginning of Section 9. Whereas Conclusion should given a separate Section i.e., Section 10. - The manuscript should be thoroughly read in order to rectify some typos error. There are a lot of commas and blank spaces in the entire manuscript. Ex. The title of Subsection 7.2 will be Feature Extraction instead of feature Extraction. - The quality of Figures 1, 2 & 3 is very poor and is hardly visible. The authors should increase the dpi value of the mentioned figures.
