

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_29828
Title of the Manuscript:	SOME FIXED POINT THEOREMS IN A_b -METRIC SPACE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The introduction section (in 1 st paragraph) Ha et al[14] and Sharma[30] are not matched with the reference list provided. Author(s) has to take care about some repetitions of matter in paper, for example, the definition 3.12 is repeated in definition 3.15. Also in definition 3.16, author(s) said T is contractive mapping, but T is not found in definition.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The paper is based on a research approach, which aims to introduce A_b metric space, although the research subject is remarkable, I kindly request the author(s) to reorganize and focus more about the performed work in abstract section, its contribution and conclusions. Thanks the author(s) for their valuable efforts within this work.
