PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In this article, the author introduce the notion of A_b -metric space and to study its basic topological properties. And prove some fixed point results under different contractive type and expansive type conditions in this spaces. Also prove some fixed point results in partially ordered A_b -metric space. The results obtained in this paper generalize and extend various results in the existing literature. The conclusions obtained in the paper are new and correct. So
