

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_30398
Title of the Manuscript:	Computing the Determinant and Inverse of the Complex Fibonacci Hermitian Toeplitz Matrix
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The authors obtained the determinant and inverse of the complex Fibonacci Hermitian Toeplitz matrix by constructing the special transformation matrices. The results presented are apparently new with the corresponding references to the previously known facts.	
<u>Minor</u> REVISION comments	The paper has many English grammar mistakes. Definition of the greatest integer function should be added.	
<u>Optional/General</u> comments
