

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_29942
Title of the Manuscript:	Support theorem for random evolution equations in strong topology
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript deals with the support theorem of the random evolution equation by the method of approximations of the solution of random evolution equations and extending the results well-known of diffusion processes. I think the paper can be accepted with the modification.	We agree to modify the content of the manuscript by following the reviewers' comments.
<u>Minor</u> REVISION comments	1. Page 3, in Proposition 2.1, "et" should be "and", it also appears in other places; 2. Some punctuation are omitted, such as (2.7) in page 4, (3.2) in page 7;	We introduced some proposition and(or) theorem for the rigor of the proof, then some numbering and pages are changed such as 3.2 in page 7 change to 3.5 in page 9; but we are corrected the all comments for this reviewer's
<u>Optional/General</u> comments
