SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	See the PDF file	All typos and missed parentheses have been corrected. Theorem 2.1 have not been deleted since referring the reader to Berkani's paper would introduce unnecessary effort. Example 2.3 have not been modified since it is easier to explain things in I2, it is not necessary to make things more complicated.
Minor REVISION comments		
Optional/General comments	This paper needs revisions. The introduction is weak and the originality of the paper is not indicated relatively to the precedent works in the field.	Introduction has been improved.
