PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In this paper author studied basic definition of IVFSM with some properties and proved commutative laws, associative laws and De- Morgan Law by using And-Operation and Or- Operation on IVFSM. Comments 1. Author should include assumption and notation section. 2. Author should strengthen the conclusion section including the main contribution of the research work. 3. The paper looks like a short note.	1. There is no any separate portion of notations in the format of journal. Notions are used in the text when any specific term is used for the first time. 2. Conclusion section is has been strengthened as per suggestion. 3. More relevant material has been added. (Definitions 2.14, 2.15 and propositions 2.1, 2.2 and 2.3).
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
