

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_31670
Title of the Manuscript:	GENERALIZED HYERS-ULAM STABILITY OF A RECIPROCAL-CUBIC FUNCTIONAL EQUATION
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Reviewer Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. What is the correct date: ... question of S.M. Ulam [1] in 1940. (p. 2, r. 3) Or [1] S.M. Ulam, Problems ... 1946. (after References) 2. The notation $\frac{0^2}{0} = 0$ (p. 2, r. 9 from bottom) is not correct.	1. Correct year is 1940. But the revised version of the book by S.M. Ulam was published in 1964. So we have cited that reference. And now we corrected that into 1940. 2. The notation in P. 4 (+2) is removed from it and make it in the right form.
<u>Minor</u> REVISION comments	The topic in the article is well developed.	-----
<u>Optional/General</u> comments	The work requires an additional check for typos issued primarily in the precise input of mathematical notations and formulas.	We have corrected all typographical errors in mathematical notations and formulas throughout the paper.
