

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_33396
Title of the Manuscript:	Viscosity Approximation Methods in Reflexive Banach Spaces
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The paper is well written, the proofs are presented clearly and in great detail and in the main theorem the authors prove a quite interesting result regarding viscosity approximation methods in reflexive Banach spaces that admit a weakly sequentially continuous duality mapping.	Reviewer's comments are in order and support our results.
