SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. More detail motivation of your work is welcomed and language should be updated. There are some typos and computational problem as stated below: 2. Equation 1.1 and 1.2 are not in uniform. 3. Page-2 . 4. Page-3, what is the value of "q". 5. Page -4, the matrix. As per this the matrix in 2.6 is not in acceptable form. 6. Page-4, as per the definition of propositional matrix given in Definition 2.1, I fail to understand the value of the matrix and same for rest five row of that matrix. The matrix in 2.10 and 2.12 also not in acceptable form. Furthermore, the authors should compare their approach with some existing methods from the literature.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
