

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_30609
Title of the Manuscript:	Simulation of Minimum Path Estimation in Software Defined Networking using Mininet Emulator
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors implement Bellman-Ford algorithm for computing the shortest path in software-defined networking using Mininet emulator. This work is meaningful for SDN. There are some comments below, which I recommend the revision. 1. A more comprehensive and up-to-date literature survey may be provided. For instance, the authors missed the following related works in SDN. [1] H. Yang, J. Zhang, Y. Ji, Y. He, and Y. Lee, "Experimental demonstration of multi-dimensional resources integration for service provisioning in cloud radio over fiber network," Scientific Reports, vol. 6, 30678, Jul. 2016. [2] H. Yang, J. Zhang, Y. Zhao, Y. Ji, J. Han, Y. Lin, and Y. Lee, "CSO: Cross Stratum Optimization for Optical as a Service," IEEE Communications Magazine, vol. 53, no. 8, pp. 130-139, Aug. 2015. 2. The English expressions should be polished. For instance, in abstract section, "This paper implement Bellman-Ford algorithm..." should be "implements". Also, in introduction section, the "SND" should be "SDN".	
Minor REVISION comments		
Optional/General comments
