FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
In the discussion part please change as In the present study and mention the medicinal plant name.	<p>Thank you Mr Reviewer for your keen observations and good works on our manuscript as a reviewer.</p> <p>We can't find anywhere within the discussion part of the manuscript where we used 'as In the present study. But if our guess that you mean 'The result from the biochemical analysis of this study showed that...' is right, we think it is better the way we present it. Once again thanks.</p> <p>Akpojotor, Peter <i>For: Authors</i></p>
