

**Editor's comments:**

For this manuscript, the authors should provide images of NMR and Pathological histology, IHC for example. A method part for Pathological histology would be necessary as well.

**Authors' feedback:**

**Dear Editor of BJMMR**

First of all, thank you very much for your important comments, and as requested by the reviewers:

- NMR images were added to the manuscript [Page 7 – Lines 200 to 202 and lines 206 to 208].
- Pathological histology slides were also added [Page 5 – Lines 175 to 176 and Page 6 – Lines 190 to 192].
- A method part for pathological histology was added to the “Material and Methods” section of the manuscript [Page 2 – Lines 72 to 82].
- Correction of figures numbering was considered and it was also updated in the revised version of the manuscript in yellow color.
