PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Introduction up to the discussion lacks flow of thought with a lot of grammatical mistakes	I have done many grammatical corrections and have tried my best to convey the information about our rare case.

SDI Review Form 1.6

<p><u>Minor</u> REVISION comments</p>	<p>I have commented within the manuscript</p>	<p>The corrections within the manuscript were very helpful. Thank you. The references asked for have been added. Indian journal 2013 reports nasopharyngeal lymphangioma as the first case but we find that, in the same year (2013) Laryngoscope has reported a case of nasopharyngeal lymphangioma too and the article in this journal mentions that after their literature search, they have found only 2 unique cases in Russian in 1966 and 1969 whose abstracts weren't available. They consider their case to be the third.</p> <p>The references for these 2 articles are :</p> <p>Haksever M, Akduman D, Aslan S, Yazla S, Haksever H. Nasopharyngeal lymphangioma in an adult: a rarity. Laryngoscope. 2013 Dec;123(12): 2972-5. doi:10.1002/lary.24214. Epub 2013 Jun 11. PubMed PMID: 23712707.</p> <p>Verma R, Verma RR, Verma RR, Sardana NK. Isolated Lymphangiomatous Polyp Nasopharynx in an Adult First Case Report in English Literature. Indian J Otolaryngol Head Neck Surg. 2014 Dec;66(4): 460-3. doi: 10.1007/s12070-013-0681-3. Epub 2013 Oct 18. PubMed PMID: 26396962; PubMed Central PMCID: PMC4571466.</p>
<p><u>Optional/General</u> comments</p>	<p>It is very relevant but need a lot of revision. The author should very carefully peruse through the paper written by Haksever 2013 in the journal "Laryngoscope" to see the flow of writing. Its one of the references</p>	<p>We have tried to rectify our mistakes and improve the flow too.</p>
