SDI Review Form 1.6

PART1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The author names are not displayed according to the Journal policy. The way the subject is displayed using the expressions " we, our" denotes that it should be a common author (same group) between references: 5, 6, 9, 10, 11 & 12. If this is the case, it's fine. If not, the whole review has to be reformulated</p> <p>Review articles usually consist of abstract and main manuscript with no discussion. Unless this is the system of the Journal it needs re-formulation.</p>	
<u>Minor</u> REVISION comments	The English language needs stringent revision; I made some but it still has to be edited	
<u>Optional/General</u> comments
