SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is a cross-sectional study, an association cannot be found with odds ratio in this kind of study except if it is a case control study. The authors should review their use of "odds ratio" in this study.	
<u>Minor</u> REVISION comments	Line 119- as shown not as showed Line 153—APIC—write in full. Refs 199/200- rewrite as: A Case Control study of Chorioamnionitis The introduction, methodology, results, discussion should be in uppercase letters or be bolded. The tables should appear under the result and not after the references. There is no conclusion—is it deliberate?	
<u>Optional/General</u> comments
