**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>Please analyses your data with other tests than chi-square analysis. To me, it had better to find a relationship among parameters by using correlation or regression analysis. This should be done in order to ensure that your statistical results has high power of strength. This issue is critical.</p> <p>Please carefully check the uniformity of references cited in the text and also in the reference list...they are not in the same format.</p>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	The experiment is well designed and the manuscript is well written.
