

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Medicine and Medical Research
Manuscript Number:	Ms_BJMMR_27076
Title of the Manuscript:	Lipoprotein (a) particles characterization by Dynamic Light Scattering
Type of Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors have answered some of my questions/concerns, although they couldn't perform new experiments due to lack of samples to be tested. However, they clearly included new statements to highlight potential limitations of the study and future perspective. Overall, these preliminarily finding for the size of Lp(a) using Dynamic Light Scattering method may provide novel information for the readers of lipid and lipoprotein metabolism field.
