PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Although it has already been mentioned in the methodology that the casting is done by a consultant and senior residents, it is still needed to know whether they have specificity and sensitivity test accepted. Author should assure us that the man was indeed qualified to do casting. Especially for senior resident, he must show a certificate that has been able to put cast conclusively match with the consultant.</p> <p>Generally, I can accept this paper to publish.</p>
