SDI Review Form 1.6

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	 Reviewer's comment 1. In the aim (Abstract) the connection between Oleic acid and liver function and/or hepatocyte therapy is not clear. 2. P3: Paragraph 2: "While recent studies" citation 11 (year 2000) is not recent, and thus do not apply. 3. P8: " On the other hand, oleic acid administration" This is discussion and 	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
	 administration". This is discussion and sentence should be relocated. 4. P10: "Oleic acid administration seems to be more". This is discussion and sentence should be relocated. Ethical issue: The ethical issue of sacrificing of Wistar rats has been documented. However, it is unclear if ethical clearance was sought and obtained from the hosting institution. 	
Minor REVISION comments	1. Remove all etc.	
Optional/General comments
