SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <u>Compulsory</u> REVISION comments | <p>(1) Introduction is too long and should be shortened.</p> <p>(2) Results should be separated from tables which can be added in the end.</p> <p>(3) Discussion needs to be rewritten as authors have not discussed the financial aspect of MRI vs. other imaging modalities.</p> <p>(4) Please discuss if DCE-MRI can avoid trucut biopsy on lesions for diagnostic purposes.</p> | |
| <u>Minor</u> REVISION comments | Grammatical corrections and language. | |
| <u>Optional/General</u> comments | <p>(1) Authors should discuss the pros and cons or use of DCE-MRI in all high-risk patients and provide a critical reasoning.</p> <p>(2) Authors should tabulate the ideal MRI protocol for best assessment of breast lesions.</p> <p>(3) Please specify what new information is available from this study and how does it advance our present understanding of the subject.</p> | |
