

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">British Journal of Medicine and Medical Research</a>
Manuscript Number:	Ms_BJMMR_29476
Title of the Manuscript:	LYMPHANGIOMA OF NASOPHARYNX : A RARE CASE WITH AN UNUSUAL PRESENTATION
Type of the Article	Original Research Article

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Overall the author has well written the case. Only minor revisions are required which I have mentioned below.</p> <ol style="list-style-type: none"> <li>1. abstract section: second line: write" head and neck region", instead of "head and neck"</li> <li>2....reported in Russia. use ":" in appropriate place, instead of using comma only</li> <li>3.Any nasopharyngeal pathologies can precipitate COM and Nashopharyngeal lymphangioma is no exception. Use this sentence appropriately, at the end of introduction part.</li> <li>4.Case report section: use uniform terminology in the manuscript. Use either "Chronic otitis media" or "chronic suppurative otitis media". You can use "COM/CSOM" in subsequent sentences.</li> <li>5.use uniform terminology i.e. either "Mucoid" or "mucopurulent" discharge. Mucopurulent would be better in the given scenario.</li> <li>6. on probing: was it fragile... bleeding on touch or not ? consistency?</li> <li>7. "Contrast enhanced CT (CECT)" would be better. First sentence of 2<sup>nd</sup> page</li> <li>8. MRI ....but a submucosal mass. (check the grammar)</li> </ol>
