**PART 1: Review Comments**

|                                     | <b>Reviewer's comment</b>  | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| <b>Compulsory</b> REVISION comments |  |  |
| <b>Minor</b> REVISION comments      | <p>Could authors provide data concerning myocardial fibrosis assessed by echocardiograms in FD+ patients, and if there were different findings between males and females?. This is a dialysis population and this data would be useful to know.</p> <p>I believe that FD+ patients should be compared to non FD patients concerning: Polyneuritis, degree of anemia or any other laboratory or clinical data that could be offered; and whether these differences (if any) differences were encountered between genders.</p> |  |
| <b>Optional/General</b> comments    |  |  |

**Reviewer Details:**
