

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">British Journal of Pharmaceutical Research</a>
Manuscript Number:	Ms_BJPR_25268
Title of the Manuscript:	Self-medication with antibiotics: Empirical evidence from Nigerian rural population
Type of the Article	Original Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ol style="list-style-type: none"> <li>1. The authors have provided sufficient and satisfactory explanations for most of the previous review comments.</li> <li>2. If the recall period was 6 months, that would resolve one of the major drawback in scientific merit of the study.( Authors should have given enough attention to mention it as 6 months in the previous manuscript also, rather than mentioning it as 12 months, if it truly was 6 months. )</li> <li>3. The format and the appearance have been improved sufficiently, yet a very few more to be done. The reference list is yet to be improved.</li> <li>4. Please clarify and <u>mention about the ethical clearance</u> for the study.</li> <li>5. The editorial board of the journal have to clarify further the issues regarding the recall period , ethical clearance, plagiarism.</li> <li>6. The manuscript may be accepted if the issues given here are clarified to satisfy the editorial board of the journal, because a lot of effort has been put into the study which is on a quite common, current health issue.</li> </ol>
