SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<p>The work is very important nowadays, given the use of extracts of ancestral plants for the obtaining of natural medicines of high therapeutic efficiency. In this sense, the chemical characterization by organo vegetal is relevant, looking for the one of greater yield in particular molecules with bioactive properties. Therefore, this research may be the basis for future work on the isolation and testing of these metabolites in different diseases.</p> <p>To enrich the text is attached recent literature of 2016. In addition to corrections of form in the text and references not cited to review.</p>	Thank for your comment
<u>Optional/General</u> comments	The comments are in yellow in PDF dialog boxes. Also, more references Moringa, as described above, in order to shore up the good results presented should be included.
