

Editor's Comment:

I have thoroughly gone the manuscript Ms_BMRJ_22358 entitled, "PARASITOLOGICAL SCREENING OF HAEMO-PARASITES OF SMALL RUMINANTS IN KARU LOCAL GOVERNMENT AREA OF NASARAWA STATE, NIGERIA" submitted for publication in British Microbiology Research Journal. The manuscript has been revised as suggested by the reviewers. The sentences has been modified and corrections have been done by the authors as per suggestions to make the article more valuable. Now the manuscript has been improved a lot. However, there were few shortcoming in the manuscript which have been corrected by me by track changes. More important is word 'Tick' which has been used in place of haemoparasites in materials and methods (under sub heading 2.5 Analysis of Result : line 126-127), which has now been corrected i.e. ticks replaced by haemoparasites (see attached corrected manuscript). Some more corrections have been made in lines 41, 42, 231-232, 240-245, and 285-288. The corrected manuscript may please be accepted for publication.
