SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Lines 162-167. Authors must clarify this because they do not know for sure if male children were more fed with breast milk. Is there any habit in Cameroon about feeding the male over the females? Why? Please explain more.	In Cameroonian setting it is obvious that male children breast feed more than female. This is testified by most twin mothers of mix sexes
<u>Optional/General</u> comments
