SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The article in its structure and overall content requires improvement. 1- In the introduction of level: * I think the authors must explain further the problem that justifies the realization of this research. 2- At the Methodology: * Authors should explain in more detail the method of random sampling, since in the methodology the authors speak about a random drawing animals. * It is also necessary to mention the statistical tests used for comparison between regions and the authors must putting the p values. 3- In terms of results: * You must see Table 1. The total numbers are not correct and not consistent with the total of 368 cited by the authors. * Also, I think that authors must add a conclusion to the article. 4. In terms of references:	Done Done We mean apparently or diseased animals. Done I correct the number

SDI Review Form 1.6

	* At the Reference 1, add the site consultation date. * The references 3-11 and 18 are not correct and presentations with this, they mean nothing. This requires each of the references, present the content or the title of the document.	Coclusion was added Done Done
<u>Optional/General</u> comments
