

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Cardiology and Angiology: An International Journal
Manuscript Number:	Ms_CA_19495
Title of the Manuscript:	Role of Hs-CRP and Exercise Stress Echocardiography in Cardiovascular Risk Stratification of Asymptomatic Type 2 Diabetic Patients
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Unfortunately the authors answered only my second question. No other answers I found in the revised manuscript. Furthermore, no explanation in the point-to-point letter can be outlined.	<p>Sir/mam</p> <ul style="list-style-type: none"> - The paper from Ciccone MM et al. Vasc Health Risk Manag. 2011;7:129-34 discuss the silent ischaemia in patients with carotid artery disease. However in my manuscript it is stated in limitations that other CAD equivalents have not been taken into consideration. - OSAS has impact on cardiovascular mortality, but BMI not OSAS is considered in manuscript. - The suggestions which are not included in the manuscript are mentioned in limitations of the study separately.
