SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper is titled "GREEN TECHNOLOGY: A CONTRIBUTION TO SUSTAINABLE DEVELOPMENT IN NIGERIA", however, most of the statements pronounced and other green technologies addressed are not linked to Nigerian perspective. If the paper is addressing the use of green technology for sustainable development in Nigeria, I would expect one to explain how the technologies available may be better utilized or applied in Nigeria in order to pursue sustainable development.	The paper is actually an expository one with a generally knowledge aimed at intensifying convincingly Nigerians awareness on the need to embrace Green Technology. So is trying to reinforce already existing knowledge and practicability of Green Technology.
<u>Minor</u> REVISION comments	See comments on the attached paper	The minor Revision is done.
<u>Optional/General</u> comments	See the attached paper	The minor Revision is done.
