

Editor's Comments

My remarks:

500 μ - it's not the correct unit (μm)

double spaces and spaces in front of punctuation marks e.g. ...Calorimeter)

The sentences cannot be started like: "[7] characterized the refuse in Kano and found out that..."should be "Demir and Yasar [7] characterized the refuse in Kano and found out that..."

3.2. - text is not aligned.

Author's Feedback

Corrected.
