| <b>Minor</b> REVISION comments      | <p>Row 231-233: In sentence should be table number 14? As evident from the <a href="#">table 4.10.9</a> that 63.63% and 36.36% of respondents were suffered with <i>E.coli</i> infection and <i>Salmonellae</i> food poisoning in last 1 year. Similarly findings were also observed by Sahay <i>et al.</i> [17].</p> <p>Row 241 and 250: So the following table is 15. Please correct the table number.</p> <p>Row 272: Please correct the table number (16 not 11).</p> <p>Row 283: Should be Table 17</p> <p>I consider that Tables 15, 16 and 17 are not required, because the values are shown in the Figures 1, 2 and 3.</p> <p>The manuscript is well-structured and will be accepted for publication after minor revision.</p> | <p><b>I have corrected all the mistakes.</b></p> <p>Actually I have given the different table numbers style in thesis as for continuity and for research paper I have to start table number from 1 and during paper preparation by fault forget to change table number.</p> <p>now I have corrected all table numbers as well as figures numbers</p> |
