

SDI Review Form 1.6

Journal Name:	<u>British Journal of Applied Science & Technology</u>
Manuscript Number:	Ms_BJAST_34196
Title of the Manuscript:	Decontamination of Aqueous Solution of Phenolics Mixtures by Biosorption
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract: Batch adsorption experiments were conducted to study the adsorption characteristics of a cationic dye, Malachite Green onto barytes. http://www.sbcollege.org/support/academicreview/AR1.pdf Author can type the following sentence: Batch adsorption experiments were conducted to study the adsorption characteristics of a cationic dye, Malachite Green onto barytes. I get in on plagiarism checker. You can find at least two published papers that in the same way starting this sentence, so I think it would be good to recount the bar otherwise (Biosorption of Malachite Green from aqueous solutions onto aerobic granules: Kinetic and equilibrium studies, Bioresource Technology, Volume 99, Issue 9, June 2008, Pages 3475–3483; RETRACTED: Adsorption of a cationic dye onto aerobic granules, PROCESS BIOCHEMISTRY 40(12):3777-3782 · December 2005).	
<u>Minor</u> REVISION comments	Only a few sentences must be written in authors own words.	
<u>Optional/General</u> comments	Complete testing of the adsorption parameters was shown.
