PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article contains valuable information in the context of the state of Nagaland. The article is well presented and the author should be congratulated for selecting such an important topic and for providing the important information which will help in formulating suitable policy for improving livelihood improvement under present climatic change and also for creating awareness for natural resource conservation. I recommend the article for consideration for publication in the journal.	
Minor REVISION comments		
Optional/General comments
