

SDI Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_38532
Title of the Manuscript:	Changes in the activities of sugars and sugar metabolic enzymes in grape berries during development
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript describes the changes in the activities of sugars and sugar metabolic enzymes in grape berries during development. The result demonstrated the relationship between the activity of metabolic enzyme and sugar content in grape berry different development stage, especially in three varieties. However, as mentioned in this MS, some similar results had been reported in the past research. There is less innovation for this paper.	Although similar results have been reported in the previous researches but no such work has been done for the genotypes studied in the present investigation.
<u>Minor</u> REVISION comments	1, In line 63, 'spain' should be 'Spain'. 2, In line 101, 'Flame Seedless showed the total soluble sugars, lowest invertase and sucrose synthase activities' should be 'Flame Seedless showed the lowest total soluble sugars, invertase and sucrose synthase activities.'	Done as suggested
<u>Optional/General</u> comments
