Manuscript Number:	Ms_CJAST_38747
Title of the Manuscript:	PHYSICAL AND MECHANICAL PROPERTIES OF SABIÁ WOOD SPECIE (Mimosa caesalpiniaefolia Benthham.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1) The paper is a little interesting. 2) However, the experimental details are rather insufficient, such as condition, measurement method, and so on. 3) I am surprised that there is no image in the whole manuscript. 4) From a metrological point of view: two digits after the comma for strength is just senseless. 5) The style of references seems to be non-uniform. 6) There are considerable grammatical/typing errors, for example. P2L8. It is suggested that the English needs proof reading thoroughly.	Corrections have been made. There are still many tree species in Brazil without their known mechanical and physical properties. This is the purpose of this article.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The submitted paper might be published in the journal but revisions should be incorporated.	Revisions have been incorporated.
