

**SDI Review Form 1.6**

|                          |                                                                                                                                                                                     |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Current Journal of Applied Science and Technology</a>                                                                                                                   |
| Manuscript Number:       | Ms_CJAST_42299                                                                                                                                                                      |
| Title of the Manuscript: | Molecular Detection of Antimicrobial Peptide Genes and Identification of Novel Antifungal Compounds of Bacillus sp. against Fusarium oxysporum f. sp cubense Causing Wilt of Banana |
| Type of the Article      | Original Research Article                                                                                                                                                           |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                     | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | 1.- Check the text in yellow<br>2.- Check the text there are very much words joined.<br>3.- Amply the discussion<br>4.- The conclusions will be specific<br>5.- Unify the references<br>6.- Title of the tables up or below?<br>7.- Add the conditions of the experiment in the tables | 1, 2, 3, 4, 5 and 7 – The corrections have been made as per reviewer comments.<br>6. Title of the tables were given below                                                     |
| <b>Minor</b> REVISION comments      | 1.- Amply the discussion<br>2.- Rearrange the conclusions<br>3.- cite references more recent                                                                                                                                                                                           | All the corrections have been made.                                                                                                                                           |
| <b>Optional/General</b> comments    | Check all the text, mainly discussion and conclusions                                                                                                                                                                                                                                  | Checked all the text and verified.                                                                                                                                            |
