

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_43332
Title of the Manuscript:	Laboratory study of a lignocellulosic biomass as an alternative base material for brake pads
Type of Article:	Original research papers

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors should consider to add one sentence of overall conclusion at the end of abstract. Besides that, please check sentence 189 of revised manuscript. I think the words "has been shown" are not suitable in this case. I think the analysis is not able to show the composition but is essential in determining the composition of materials.	One sentence of overall conclusion has been added to the end of the abstract. Sentence 189 has been restructured. Mixture of different wood dusts was not examined in this research work, as a result, the compositional analysis of the wood dust was not included in the scope of our research work.
