Manuscript Number:	Ms_AFSJ_42367
Title of the Manuscript:	DEVELOPMENT OF OHMIC HEATING MODEL FOR PARBOILING OF PADDY
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The results just given in details and summarised but not discussed with similar ohmic heater models which are published on the internet I think it is very important the authors should compare their results with the results of others.	
<u>Minor</u> REVISION comments	There are some smaller mistakes like "eg-" instead of "e.g." in the abstract or °C instead of °C consequently in the full text	
<u>Optional/General</u> comments	The results just given in details and summarised but not discussed with similar ohmic heater models which are published on the internet There are some smaller mistakes like "eg-" instead of "e.g." in the abstract or 0C instead of °C consequently in the full text
