SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The authors conducted a random survey regarding the collapsed and ripped off of roofing systems and suggested some measures to minimize incidences of failures. In the reviewer's opinion, the addressed topic and the results presented will be of interest to the readers of the journal. However, before recommending final publication the authors should made modifications as described below: 1. The abstract is not complete; the main measures to minimize the incidence of failures should be mentioned in about 2-3 rows. 2. The authors should explain or correct what written in lines 31-33. The reviewer feel that a house may not be inhabited without some columns. 3. Suggesting measures to minimize roof failures is not a new topic. In the literature review section of the paper, the reviewer expected to find some publications about that (or an state of the art regarding roof failures and suggested solutions. In the author opinion this part need to be improved.	
<u>Minor</u> REVISION comments	1. In lines 288 and 289 correct "to roof failure of failures". 2. In line 291 correct "adsorbed". 3. An unpublished reference should not given (line 367).	
<u>Optional/General</u> comments
